

DO YOU HAVE THE RIGHT SIZE FLANGE?

NEED HELP?

Text us @ 402-915-1559

Flange sizing :

- Stimulate nipple so it is everted
- Each nipple can be different sizes!
- Measure base of nipple (not areola)
- Measure in millimeters (1cm= 10mm)
- Go up 1-2mm from there to find your size
- If you measure smaller than the size of flange you have, just buy inserts! We carry down to a 13mm!
